

General keyboard shortcuts

Opening menus and menu items

Shortcut Keys	Result
<i>Alt+<?></i>	<p>Opens a menu where <?> is the underlined character of the menu you want to open. For example, <i>Alt+F</i> opens the menu File.</p> <p>With the menu open, you will again find underlined characters. You can access these menu items directly by pressing the underlined character key. Where two menu items have the same underlined character, press the character key again to move to the next item.</p> <p>Example: to access the Printer Settings item of the File menu after opening it, press <i>R</i> twice to move from the initial Digital Signatures selection to Printer Settings.</p> <p>There may be instances where an item in a menu has no underlined character. This will have to be clicked directly.</p>
<i>Esc</i>	Closes an open menu.
<i>F6</i>	<p>Repeatedly pressing <i>F6</i> switches the focus and circles through the following objects:</p> <ul style="list-style-type: none">• Menu bar• Every toolbar from top to bottom and from left to right• Every free window from left to right• Document
<i>Shift+F6</i>	Switches through objects in the opposite direction.
<i>Ctrl+F6</i>	Switches the focus to the document.
<i>F10</i> or <i>Alt</i>	Switches to the Menu bar and back.
<i>Esc</i>	Closes an open menu.

Accessing a menu command

Press *Alt* or *F6* or *F10* to select the first item on the menu bar (the **File** menu). With the *right-arrow*, the next menu to the right is selected; with the *left-arrow*, the previous menu. The *Home* and *End* keys select the first and the last item on the Menu bar.

The *down-arrow* opens a selected menu. An additional *down-arrow* or *up-arrow* moves the selection through the menu commands. The *right-arrow* opens any existing submenus.

Press *Enter* to run the selected menu command.

Running a toolbar command

Press *F6* repeatedly until the first icon on the toolbar is selected. Use the right and left arrows to select any icon on a horizontal toolbar. Similarly, use the up and down arrows to select any icon on a vertical toolbar. The *Home* key selects the first icon on a toolbar, and the *End* key the last.

Press *Enter* to run the selected icon. If the selected icon normally demands a consecutive mouse action, such as inserting a rectangle, then pressing the *Enter* key is not sufficient: in these cases press *Ctrl+Enter*.

Press *Ctrl+Enter* on an icon for creating a draw object. A draw object will be placed into the middle of the view, with a predefined size.

Press *Ctrl+Enter* on the Selection tool to select the first draw object in the document. If you want to edit, size, or move the selected draw object, first use *Ctrl+F6* to move the focus into the document.

Navigating and selecting with the keyboard

You can navigate through a document and make selections with the keyboard.
